

APT

BUILDING THE  
SKILLS THAT  
BUILD  
READINESS

At Advanced Pyrotechnics (APT), we are more than the leading regional manufacturer of high-performance non-lethal pyrotechnics and low-velocity ammunition for the defence and security sector. Our support services are designed to offer our expertise to the whole industry – from training new recruits to partnering with other leading defence manufacturers.

## PRODUCT TRAINING

Realistic training is essential to operational readiness. At APT, we structure advanced training experiences which expose trainees to the most realistic and safe imitations of explosions through the use of pyrotechnics with powerful sound and flash effects. In addition, we offer trainees the opportunity to learn about the safe handling of pyrotechnic components.

## PRODUCTION LEASING

In recent years, we have developed our technical and technological capabilities to produce advanced pyrotechnics for the region's armed forces and security agencies, all backed by a skilled and talented team. Now, we are able to offer our full production capabilities at one of the world's most advanced pyrotechnics facilities to third parties on an out-sourced basis – enabling them to benefit from our R&D expertise and high volume manufacturing capacity.
